TOM HARTLEY JNR

1965 MASERATI Mistral Spyder 3.7 RHD

Blue Scuro with Black Leather

£SOLD

Mileage	N/A miles	Engine Capacity	3692cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	109S071

A very rare UK supplied Mistral Spyder, with just 13 right-hand drive examples produced. Of these 13, only eight were specified new with a hard top roof, with just five of these having the 3.7 litre engine fitted from the factory. Our car is one of only five Mistrals to leave the factory finished in Blu Scuro and the sole right-hand drive example finished in this colour from new.

This Maserati is fresh from a mechanical recommissioning by respected marque experts Bill McGrath. We also returned the car back to its original colour of Blu Scuro as it was originally produced.

Complete with its hard top, soft top and tonneau cover, this Mistral is a highly flexible and ready to use classic Italian GT car, comparable to a 275 or 330 GTS in terms of driving experience and rarity, but not in price.

The car is presented in fantastic condition throughout and benefits from an extensive history file which contains its Maserati

Classiche, confirming it retains its original engine and chassis, original factory build specification sheet, original factory sale and shipping invoice to Maserati Concessionaires Ltd, London SW3. Restoration invoices and images from Bill McGraph commencing August 1989. Detailed refurbishement invoices from January 2023, where the car has covered a mere 90 miles since.

An excellent opportunity to buy a very rare and interesting Maserati.
