A truly outstanding Aston Martin, arguably the most important of all DB4GTs.

Built as a â€˜Master Projectâ€™ car and sold new to John Ogierâ€™s Essex Racing Stable.

Run and prepared as a â€˜Worksâ€™ car and driven in period by Works drivers.

Roy Salvadori famously piloted 18 TVX to a second-place finish to Stirling Moss in the Rob Walker Ferrari 250 SWB at the 1960 Goodwood TT.

Recently refurbished and returned to its original colour combination.
