The SF90 Stradale represents Ferrari's new series-production supercar, launched in celebration of Scuderia Ferrari 'SF' and '90' years of their foundation.

The car signifies everything that has been achieved by them to date in terms of performance and continues to reinforce the strong link between Ferrari's track and road cars. It represents the capturing of the most advanced technologies developed in Maranello, the SF90 is a perfect demonstration of Ferrari's knowledge and skills in the competition field and how they have transferred it to their production cars.

In terms of performance the car is breathtaking, it produces an incredible 986bhp using its 4 litre V8 twin turbo engine and 3 electric motors. It is the most powerful Ferrari road car to date with a 0 to 62mph in 2.5 seconds and a top speed of 211mph! The engineâ€™s power is supported via its 4-wheel drive, downforce at the front end generated by the car's Vortex
