Verde Miura with Nero

£SOLD

Mileage	26,647 miles	Engine Capacity	3929cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	3589

The Lamborghini Miura is one of the most iconic sports cars of the late 1960s and early 1970s. First shown to the public at the Geneva Motor Show in 1966, the model was and still is a technical and stylistic masterpiece.

The P400 was the first and by far the purest iteration of the Miura model line and is the true representation of the stunning vision created by Lamborghini and Bertone.

Chassis 3589 was completed in June 1968 and it was finished in the striking colour combination of Verde Miura over a Nero interior. It is 1 of only 42 P400s to be painted in this colour from new. The car was built with the special-order option of wider tyres and it was the very first Miura to be fitted with such, as confirmed by its factory build sheets.

It is fresh from restoration by the world's leading model specialists in Italy and boasts full matching number status.
