| Transmission | Manual | Chassis No. | 133311 |

Only 526 Zagato bodied Lancia Flaminias were ever produced, with this example being one of just 152 Sport 3C 2.5 litre variants.

Chassis #133311 was built in the summer of 1962, and in 1979 came into the hands of a doctor who would keep the car in the French countryside for 35 years. It was then bought by marque specialists Thornley Kelham Ltd, who carried out an excruciating and world class nut and bolt restoration, at a cost of a quarter of a million pounds.

Presented today in exceptional condition throughout and finished in its sophisticated and original colour combination. This rare Zagato is offered complete with its spare wheel and an extensive history file, containing its recently issued Lancia Certificate of Origin as well as restoration invoices.
