An exceptional and early production non-cat, non-adjust example that benefits from just 4,604 km from new.

One of only 100 F40s delivered new to Switzerland which is where it resided for the first 24 years of its life and in single ownership for 23 of those 24 years. In 2014 it was sold to a very good friend and client of our business, a man with a formidable collection who has retained the car ever since.

Incredibly original throughout and still retains all its original body panels, factory markings, country code stamps and has very prominent Kevlar weave on the bodywork.

Complete with its original books including the ever-important service/warranty supplement, leather pouch, tool kit, tyre canister and dedicated history file. It was also awarded its Ferrari â€˜Red Bookâ€™ Classiche certification which confirms it still retains its original chassis, body, engine and gearbox.
