Mansour Orange with Black Sabre Style Seats with Orange Accents

£SOLD

Mileage	6 miles	Engine Capacity	3799cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	620225

Derived from the track-only 570S GT4, the 620RÂ represents the closest road-legal experience to McLaren's customer racing programme. With justÂ 225 examples produced globally, the 620R offers a rare and uncompromising package that brings motorsport engineering, aerodynamic sophistication, translating race-bred engineering, aerodynamic expertise, and circuit level performance into a road legal package with remarkable purity.

At the heart of the car is a 3.8 litre twin-turbocharged V8 producingÂ 612 bhp andÂ 620 Nm of torque, delivered to the rear wheels through a 7-speed dual-clutch transmission. Thanks to a lightweight carbon fibre chassis and fully adjustable motorsport derived suspension, the car accelerates fromÂ 0-62 mph in 2.9 secondsÂ and achieves a top speed ofÂ 200 mph. With carbon ceramic brakes, sticky semi-slick tyres and manually adjustable dampers, the 620R blends race car control with road going usability in a way few others can.

This example is finished in the MSO bespoke exterior paint of â€˜*Mansour Orangeâ€™* overÂ MSO Defined full carbon fibre bodywork, including theÂ bonnet, roof, front fenders, exterior door inserts, and extended 620R sill finishers, delivering a visual impact matched only by its technical precision. AÂ functional roof scoopÂ in MSO carbon fibre adds dynamic airflow and motorsport character, while theÂ MSO Nano black exhaust finishersÂ complete the aggressive aesthetic. Wheels areÂ 15-spoke lightweight forged alloys, finished inÂ gloss black withÂ carbon ceramic brakesÂ andÂ black calipers with printed McLaren logos.

The interior featuresÂ MSO Sabre seats,Â 6-point harnesses in black, and aÂ red Alcantara steering wheel with 12 oâ€™clock marker, all anchored by theÂ MSO defined harness bar. Carbon fibre is extensively applied throughout the cabin via theÂ carbon fibre interior upgrade. Additional features includeÂ carbon black seatbelts,Â air conditioning, and theÂ Bowers & Wilkins premium audio system. Further specification includesÂ parking sensors with rear camera,Â carbon fibre ignition key,Â fire extinguisher,Â warning triangle and first aid kit.

It comes with its handbooks including the service/warranty supplement, warning triangle, tool roll, 6-point harnesses, torque tool, 4 x wheel spacers and a dedicated history file.

This 620R represents an exceptional opportunity to acquire a highly specified, visually striking, and deeply focused piece of McLarenâ€™s motorsport legacy.

Currently located and taxes paid in Bahrain.
