Chassis #06646 is a truly spectacular example.

One of only thirteen UK right-hand drive Dino GTs that was delivered new in the ultimate and most sought-after specification of flared arches, Daytona style seats and Campagnolo alloy wheels, otherwise known as 'Chairs & Flares'.

Presented in its original colour combination and retains all of its original interior, which shows very little sign of wear, consistent with its low mileage of 20,724 from new. Under single ownership for 23 years with one of the worldâ€™s most prominent collectors, who merely stored it amongst some of his other incredible collection.

After being purchased by ourselves in 2019, we entrusted the car to â€˜Mr. Dinoâ€™ himself, Nick Cartwright, for a full mechanical recommissioning and total refurbishment whilst ensuring we retain the original interior. Nick has known this car for 30 years and refers to it as a true â€˜reference carâ€™.
