2023 FERRARI SF90 Spider

Rosso Fuoco with Grigio Chiaro

£SALE AGREED

Mileage	5,305 miles	Engine Capacity	3990cc
Body Style	Convertible	Fuel	Hybrid
Transmission	Semi-automatic	Chassis No.	299206

Drawing heavily upon Ferrariâ€™s extensive experience in Formula 1 and competition, the SF90 became the marqueâ€™s first series-production plug-in hybrid and demonstrated just how closely Ferrariâ€™s road and racing programmes had become intertwined.

Its powertrain combines a 4.0-litre twin-turbocharged V8 with three electric motors, producing a remarkable 986bhp. Power is delivered through an 8-speed dual-clutch transmission and sophisticated four-wheel-drive system, allowing the SF90 to accelerate from 0â€"62mph in just 2.5 seconds and continue to a top speed of 211mph.

The SF90 Spider brings another dimension to this extraordinary package. Retaining the immense performance and technological capability of the SF90 Stradale, it incorporates Ferrariâ€™s retractable hard top, allowing the V8 powertrain to be enjoyed with the roof lowered while preserving the dramatic proportions and character of the coupÃ©.
