A Ferrari 288 GTO is *the* original Ferrari supercar. Only 272 examples were ever produced and they are widely regarded as the most sought-after and important of all post 1960s Ferraris.

This particular example was specified with the optional extras of air conditioning and electric windows and has only covered just over 9,000km from new.

Supplied new to Europe and benefits from just three owners from new, with the last owners custodianship spanning some 24 years. It boastsÂ incredible originality throughoutÂ and is fresh from a major mechanical overhaul by model experts Autofficina Bonini.

The car is offered complete with its handbooks including the service/warranty supplement, leather pouch, original tool kit and portable light.
