The Porsche 911 GT3 Touring Package (992.2) is the latest evolution of one of the most celebrated driverâ€™s cars ever produced, combining the unmistakable character of a naturally aspirated 4.0-litre flat-six with the purity of a six speed manual gearbox. Refined for the 992.2 generation, Porsche has introduced subtle yet significant enhancements to the chassis, aerodynamics and driver engagement, resulting in an even sharper and more focused driving experience.

Producing 510hp and revving to 9,000rpm, the GT3 with Touring Package delivers exceptional response, soundtrack and involvement, while revisions to the gearing and suspension, inspired by the 911 S/T, further enhance its already outstanding dynamics.

This single-owner, UK-supplied example was specified from new with an extensive list of factory features and optional extras, including: Paint to Sample, Lightweight Package, carbon fibre lightweight sports bucket seats (foldable), heated front seats,
