TOM HARTLEY JNR

1930 BENTLEY 4 1/2 Litre Supercharged 'Blower'

Blue Panels & Fabric with Blue Leather

£POA

Mileage	N/A miles	Engine Capacity	4398cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	SM3913

One of only 50 Blower Bentleys produced, of which only 43 remain today. JustÂ 18 of those examples can still boast their 'matching number' status and of these only 7 are fabric-bodied cars.

This particular car is widely regarded as the most original of all the Blower Bentleys and is fresh from a 5-year, reference point overhaul by marque experts R.C. Moss at a cost of Â£730,000, wherein the focus was preservation not restoration.

Following this work, it was entered into the Pebble Beach Concours d'Elegance in 2019, which was a celebration of 100 years of the Bentley Marque. Against incredibly tough competition, SM3913 came out on top and was awarded 'Best in Class'. A testament to both the originality of the car and the world-class work carried out by R.C. Moss.

The car's history has been completely documented and the overhaul supervised throughout by Bentley historian Dr Clare Hay.
