| Body Style | Coupe | Fuel | Petrol |
| Transmission | Semi Automatic | Chassis No. | GJ03060 |

The Vanquish Carbon special edition was produced to be the ultimate expression of Aston Martin. It celebrates this incredible material and its inherent engineering and aesthetic beauty. The deep front carbon fibre splitter, side strakes, mirror caps and roof are complemented by black grille, bonnet and side strake meshes, black trim around the distinctive glasshouse, zircotec exhaust tailpipes and Gloss Black forged 10-spoke 20-inch alloy wheels. The interior is enhanced by a Herringbone carbon fibre facia trim, black speaker grilles on the Bang & Olufsen audio system, black rotary dial controls and black gearshift paddles. At its beating heart is a 6.0-litre V12. Sophisticated new engine management frees even more power and torque while communicating seamlessly with the 8-speed Touchtronic III automatic gearbox. The lighter, faster gearbox enhances refinement when required but also executes each gearshift with greater precision when the unfettered savagery of the engineâ€™s ultimate power is summoned. With shifts completed as quick as 130 milliseconds and 568 bhp (576 PS) to draw upon, the Vanquish Carbon Coupe is capable of 0-60 mph in 3.6 seconds (0-100 km/h in 3.8 sec) and a top speed of 201 mph
