A Series 1 250 GTO is widely regarded as the greatest Ferrari ever produced, with a multitude of wins and podium finishes in national and international events worldwide. Only 36 GTOs in total were ever produced and today they reside in the collections of some of the foremost collectors in the world. Chassis no. #3527 is one of the purest GTOs in existence, still retaining all of its original major components including the chassis, body, engine, gearbox and rear axle.
