1 of only 488 right-hand drive cars ever produced. A late and more desirable â€Eâ€™ series car, delivered new in late 1972 and originally finished in Rosso Chiaro over a Black interior. Comprehensively restored over a number of years and accompanied by a very impressive history file that documents all ownership changes, includes MOTs dating back to 1979, plus correspondence and invoices relating to the restoration. Also complete with its original pouch, handbooks and jack. Not only a very well restored example but a car with documented provenance which isnâ€™t common with Dinos.
