| Mileage | 4,971 miles | Engine Capacity | 2936cc |
| Body Style | Coupe | Fuel | Petrol |
| Transmission | Manual | Chassis No. | 075052 |

A very special car, 1 of only 8 factory prototypes produced of which very few survive. It differs from the standard production models by way of many features which include but not limited to; different wing mirrors, 5x rear wing vents, a thinner rear wing, different kevlar weave to the tub and quilted headlining. Gifted new by Enzo Ferrari to a Ferrari dignitary of the highest order. Recently mechanically re-commissioned by the factory and awarded its Red Book Classiche Certification which confirms it being a prototype, the owner it was gifted to and that it was gifted by the Commendatore himself. A very special car and a significant part of Ferrari's history!
