TOM HARTLEY JNR

1964 ASTON MARTIN DB5

Green with Beige Connolly Leather

£SOLD

Mileage	76,804 miles	Engine Capacity	4200cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	DB5/1926/R

An exceptional example that we've recently purchased direct from a gentleman who's very much car collecting and rock royalty!

This particular DB5 was delivered new to a Mr L. J. Grundon and a letter on file from his son confirms that his father retained ownership for some 30 years, until his death and that the car was his father's 'pride and joy'.

The car was delivered new in Goodwood Green over beige leather and factory options included chrome wheels, heated rear window, Motorola radio, powered aerial and two Britax safety belts.

A matching number example that since being sold from its first owner's estate, has been maintained without regard to cost by either Aston Martin Works or Aston Martin Heritage dealers including most recently by the world renowned R.S. Williams Ltd.

Tom Hartley Jnr, Tadmarton Heath Road, Hook Norton, Oxfordshire OX15 5DD

Purchased by its most recent owner in December 2018 from the Bonhams Bond Street sale at which time the car still retained its original interior, albeit very well worn. Following his purchase, over Â£108,000 has been spent on the car, which included a bare metal respray and re-trim in period correct Vaumol leather interior.

A no-excuse car that presents exceptionally well, is matching numbers and thankfully not presented or originally in the clichÃ©d colours of Silver Birch over a black interior.
