Since its founding in 1987, TECHART Automobildesign GmbH have established themselves as one of the leading Porsche customisation and tuning specialists. Not limited to exterior styling and aerodynamic improvement, the TECHART vision is implemented in all areas of the vehicle with technical optimisations such as the exhaust system, wheels, suspension, assistance systems and engine powerkits plus bespoke interior styling catered to by an inhouse saddlery. With its headquarters a mere 10 kilometres away from Porscheâ€™s Stuttgart factory and as a registered vehicle manufacturer, TECHART has built the expertise needed to achieve the highest level of build quality for which they are renowned.

To showcase their capabilities to a global audience, this very Porsche 911 Carrera 4S Coupe with TECHART upgrades was chosen to be displayed at the 2013 Geneva Motor Salon. Converted to â€œfull TECHART specification by its sole owner from new, who generously made his car available for the motorshow at the request of TECHART due to its extensive specification commissioned.
