repositioned to rear cross member, Twisted plaques, LED 95mm oversize rear tail lights, Twisted 6mm powder coated steering guard, zinc coated front bumper and aero wiper blades, high gloss body colour to wing mirrors and cross member and security system.

In addition to the host of Twisted enhancements the real excitement sits underneath, with the standard Defender 2198cc diesel engine replaced with a 6162cc Corvette LS3 V8 petrol coupled with a six-speed automatic gearbox, ECU upgrade and speed de-restriction. In order to handle its extra power the brakes have been uprated to 6 piston brakes at the front (as opposed to the standard 4) with 365 mm discs, upgraded anti roll bar, springs and dampers, Twisted progressive suspension, Twisted intercooler, ABS and traction control.

All maintenance services have been completed by Twisted since 2017.
