£SOLD

Mileage	889 miles	Engine Capacity	5980cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	76026

The Pagani marque is one that has become synonymous with beauty, quality and technology, thanks to its visionary founder, Horacio Pagani.

Horacio Pagani was greatly influenced by the words of Leonardo da Vinci, who believed that "Art and Science are two disciplines that must walk together hand in hand." This idea sparked a vision of merging art and science to craft masterpieces that were both beautiful yet functional. From then on, da Vinci's principles became the foundation of every car Horacio created, proving himself to be a true 'maestro'.

Horacio's latest creation, the Utopia is one such masterpiece of automotive design, showcasing cutting-edge technology and expert craftsmanship. Featuring a sculpted, aerodynamic body that is both elegant and aggressive. At the heart of the Utopia is a twin-turbo V12 engine developed on a bespoke basis by Mercedes-AMG that produces 864 hp and 1100 Nm of torque,

capable of propelling this hypercar from 0 to 60 mph in 3.1 seconds and achieving a top speed of 217 mph.

Inside, the cockpit is a mixture of high-tech features with handcrafted finishes. Carbon fibre, titanium and leather come together to create a driving environment that is both comfortable and exciting.

In addition to its power and design, the Pagani Utopia features advanced suspension and braking systems. The model is built for those who want an exhilarating driving experience, whether on the open road or out on the track, delivering a thrill with every turn.

â€œMore than four thousand stylistic drawings, ten scale models, one wind tunnel model, two 1:1 scale models and countless ideas, research and experiments on eight complete prototypes for a team effort that lasted more than six years to create something timeless and cutting-edge in terms of technology.â€ â€" Horacio Pagani describing the design process of the Utopia

This particular example is one of only 99 units ever to be produced and was specified with optional extras that include: special paintwork in Blu Midnight with Blu Francia stripes, flaps in exposed carbon, Italian flag on side mirrors, exterior anodisation in silver, Aeroblade wheels in black, brake callipers in Blu Francia, metal trim caps to side air intake, custom two tone interior layout in blue and off-white leather, diamond stitching to floor mats and seat centres, interior anodisation in silver, bucket seats with 4-point harnesses, black dials, gear knob in aluminium, ceramic-coated titanium exhaust system and custom two-tone luggage set to match the interior.

In addition, this car also benefits from a one-year extended manufactures warranty, which expires on the 13th December 2026.

Presented in â€˜as newâ€™ condition throughout and offered complete with its original books including the service/warranty supplement, fitted luggage, spare keys, car cover, battery conditioner and a dedicated history file.

The Utopia isn’t just a car, itâ€™s a statement, a reminder that in the world of hypercars, very few brands can claim to fuse art, engineering and exclusivity as seamlessly as Pagani.
