TOM HARTLEY JNR

2020 MCLAREN Senna GTR

Mansour Orange with Carbon Black Alcantara

£POA

Mileage	71 miles	Engine Capacity	3994cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	825075

Unveiled as the most extreme expression of McLarenâ€™s Ultimate Series, the Senna GTR is a pure, track-only performance car, free from the constraints of road homologation and engineered to operate at the outer edge of possibility. With production limited to just 75 examples globally, the GTR represents McLarenâ€™s most focused, unapologetic creation to date.

At its core lies a recalibrated 4.0 litre twin-turbocharged V8 producingÂ 813 bhp andÂ 800 NmÂ of torque. With a dry weight of onlyÂ 1,188 kg, the GTR achievesÂ 0-62 mph in 2.8 secondsÂ andÂ 0-124 mph in just 6.8 seconds, delivering acceleration figures comparable to full GT-class race machinery. Its widened track, race-spec suspension, and active aerodynamic package generatingÂ over 1,000 kg of downforce that drastically improves its stability at high-speed.

This unused from new example is finished in the MSO bespoke exterior colour ofÂ '*Mansour Orange*', a high-impact custom

commission complemented by anÄ MSO bespoke vinyl livery, both visually accentuating the carâ€™s functional aggression. Further enhancements includeÂ accent panels and canopy panels in carbon fibre satin, MSO defined carbon fibre satin sill panel, andÂ lightweight gloss black centre-lock wheels, all underscoring the GTRâ€™s uncompromising material palette.

Inside, the stripped carbon cockpit features a touring-size FIA driverâ€™s seat with winged head support, anÂ FIA passenger seat, andÂ 6-point harnesses, all integrated within the exposed Monocage II-R structure (*McLarenâ€™s ultra-lightweight, motorsport grade carbon fibre monocoque chassis used exclusively in theÂ Senna GTR*). A race-spec steering yoke with integrated telemetry controls, DRS functionality, and configurable settings completes the focused interface.

It comes with its car cover, 4 x new race wheels (*slicks*) and dedicated history file.

This Senna GTR presents an exceptional opportunity to acquire one of McLarenâ€™s rarest and most extreme Ultimate Series builds.

Currently located and taxes paid in Bahrain.
