£SALE AGREED

Mileage	11 miles	Engine Capacity	3799cc
Body Style	Convertible	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	067525

The limited production MSO Carbon Series was influenced by the fully carbon body exposed McLaren P1 that was presented at the 2016 Geneva motor show. With a limited production of just 25 examples worldwide gave MSO the opportunity for their clients to bespoke each individual example.

A driver focused â€œLongtailâ€ model with its carbon fibre exposed bodywork produced exhilarating performance from its re-engineered V8 twin-turbocharged engine producing some 666 bhp and increased downforce by an outstanding 40% over any other Super Series previously produced. Additionally, further weight gains of some 100 kg were achieved from the previous 620S model with the use of lightweight carbon fibre racing seats,1mm thinner window screen glass and ultra lightweight forged alloy wheels. Further mechanical enhancements made were, upgraded turbos, cylinder heads, exhaust manifolds and camshafts. This produced the outstanding performance of 0-100 km in just 2.9 seconds, 0-200 km in just 8.1

seconds before onto a top speed of 326 km.

This particular example was commissioned with a host of MSO options and features that included MSO Carbon Series exterior gloss finish, carbon fibre roof and tonneau cover, carbon fibre A-pillars, carbon fibre front splitter, carbon fibre front bonnet, rear deck, rear bumper upper finish, carbon fibre rear bumper side panels, carbon fibre rear bumper centre section, carbon fibre rear bodyside, carbon fibre airbrake, carbon fibre louvered front wings & front bumper finish, carbon fibre rear bumper centre, carbon fibre front bumper side panels, carbon fibre end plates, carbon fibre inner side intake, carbon fibre lower side intakes, carbon fibre side intakes, carbon fibre side blades, carbon fibre wheel arches, carbon fibre sill panels with McLaren Logo, carbon fibre mirror casings, carbon fibre rear bodyside lower panels and carbon fibre fuel filler cap. The interior is finished with a combination of carbon black leather and carbon black Alcantara and McLaren orange trim and stitching, carbon black Alcantara steering wheel, extended upper trim in carbon black Alcantara, extended carbon fibre interior upgrade. Further options included Â Meridian surround sound system, parking camera, parking sensors front & rear, electric steering column adjustment, McLaren track telemetry camera, soft close doors, suspension lift, carbon ceramic brakes, tyre pressure monitoring system (TPMS), 675LT logo floor mats, MSO dedication plaque, lightweight forged wheels in black stealth finish, silver callipers, McLaren stealth badge and volumetric alarm upgrade and vehicle tracking system.

Complete with its handbooks including the service/warranty supplement,Â spare keys, battery charger, warning triangle, first aid kit and car cover.
