£SOLD

Mileage	1,621 miles	Engine Capacity	4395cc
Body Style	SUV	Fuel	Petrol
Transmission	Automatic	Chassis No.	439270

The Land Rover Defender OCTA is the most powerful Defender ever built. The name was chosen to highlight the Defender OCTA's qualities of strength, rarity, and desirability, mirroring those of a diamond. It also represents the vehicle's toughness and durability. It is equipped with a 4.4 litre twin-turbocharged V8 producing 635 bhp, it accelerates from 0 to 60 mph in just 3.8 seconds. This latest model also features an active exhaust system, designed for optimal thermal management in OCTA mode, delivering a distinctive and aggressive engine note.

To ensure it meets the highest standards, Land Rover subjected the Defender OCTA to the most rigorous testing program in the brandâ€™s historyâ€”undergoing more than 13,960 individual tests. With a wading depth of up to one metre (twice that of the original Defender), the OCTA sets a new benchmark in off-road capability. Enhanced ground clearance and improved wheel articulation allow it to conquer the most challenging terrain with unmatched ease.
