Gotham Black with Carbon Black Alcantara

£SOLD

Mileage	595 miles	Engine Capacity	3994cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	800280

The McLaren Senna stands as the most uncompromising road car the brand has ever built, a machine engineered with a single focus; to be the ultimate track tool while remaining road-legal. Named in honour of legendary three-time Formula 1 Champion Ayrton Senna, it delivers an intoxicating blend of extreme aerodynamics, lightweight and blistering performance.

Powered by a 4.0 litre twin-turbocharged V8 producing 789 bhp and 800 Nm of torque, paired with a lightning fast 7 speed dual-clutch transmission, the Senna offers staggering performance. With a dry weight of just 1,198 kg, it achieves an exceptional power-to-weight ratio and can accelerate from 0â€“60 mph in just 2.7 seconds, reaching a top speed of 208 mph. The MonoCage III carbon-fibre chassis and race-inspired active aerodynamics generate up to 800 kg of downforce, ensuring extraordinary agility and confidence at speed. Inside, the cabin is stripped to the essentials: exposed carbon panels, minimalist controls, and track-ready seating immerse the driver in a pure motorsport experience.
