£144,500

Mileage	1,854 miles	Engine Capacity	3996cc
Body Style	Coupe	Fuel	Petrol
Transmission	PDK	Chassis No.	269439

The Porsche 718 Cayman GT4 RS represents the most extreme and uncompromising interpretation of the Cayman platform ever produced. Developed with direct influence from Porscheâ€™s GT racing programme, the GT4 RS combines naturally aspirated theatre with razor-sharp precision, powered by the revered 4.0-litre flat-six engine derived from the 911 GT3. Producing 493bhp and reaching 9,000rpm, the GT4 RS delivers an exhilarating driving experience, accelerating from 0â€“62mph in just 3.4 seconds and on to a top speed of 196mph, accompanied by one of the most visceral induction notes of any modern performance car thanks to its signature air intakes mounted directly behind the cabin.

Raw, lightweight and purpose built, the GT4 RS is defined by its aggressive aerodynamic package, exposed carbon fibre elements and track-focused stance. Every surface has been engineered with performance in mind, from the swan-neck rear wing and vented front arches to the sculpted bodywork designed to maximise downforce and cooling efficiency. The result is a car that has unmistakable design purity and balance that have long defined the Cayman lineage.
