TOM HARTLEY JNR

1939 ALFA ROMEO 6C 2300B Corto Spider in the style of Touring

Dark red with Tan

£SOLD

Mileage	N/A miles	Engine Capacity	2309cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	813219

Rebodied around 30 years ago in the style of a 2.9 Touring Spider. Ex Bill Jacobs and Gene Ponder, the body has been executed beautifully and although the car would have originally been fitted with a single carburettor, it has been updated to the more desirable dual carburettor setup that one would normally find on a 2300B Mille Miglia chassis. The upgrade to this higher specification increases the Alfa's excellent touring capabilities. Amazing value for money when you consider it sold for $924,000 at auction back in 2007!
