TOM HARTLEY JNR

1932 ALFA ROMEO 8CLe Mans Car

Dark Red with Tobacco

£SOLD

Mileage	N/A miles	Engine Capacity	2336cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	2211067

The fourth of the 1932 Works Le Mans cars, bodied by Touring and raced again at Le Mans in 1933. One of the very few original bodied, matching number Le Mans cars still in existence, the others being part of some of the worlds most celebrated collections.

A very well known car in the UK as it's resided here since 1934 and been owned by some of our most respected collectors including Reg Parker, a legend in the VSCC circles.

With only 3 owners in the last 53 years and known history from new (including Le Mans twice), this is without question one of the very best surviving Long Chassis Alfa 8C's.

Tom Hartley Jnr, Tadmarton Heath Road, Hook Norton, Oxfordshire OX15 5DD
