Mileage	N/A miles	Engine Capacity	3670cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	0125/R

A very special Aston Martin, arguably the most important of all DB4 GTs.

Built in the Experimental Department as a 'Master Project' car and sold new to John Ogier's Essex Racing Stable where it was ran and prepared as a 'works' car and driven in period by works drivers such as Roy Salvadori and Innes Ireland.

Roy Salvadori famously piloted '18 TVX' to a second-place finish to Stirling Moss in the Rob Walker Ferrari 250 SWB, at the 1960 Goodwood TT.

In more recent times, the car has been owned by one of the UK's most well-respected collectors, where it resided amongst some of the worlds most important cars.
