TOM HARTLEY JNR

1963 MERCEDES-BENZ 300 SL Roadster

DB166 Blue-Grey with Blue Leather

£SOLD

Mileage	N/A miles	Engine Capacity	2996cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	003233

A very late production alloy block, disc brake example of which only 210 were ever produced.

Delivered new in the stunning shade of DB166 â€˜Blue-Greyâ€™ over a Blue leather interior and with a contrasting hardtop, the same colours itâ€™s presented in today.

Total matching numbers including chassis, body, engine, gearbox, front and rear axles plus steering box.

Placed into storage in 1974 at which time it was rumoured to have covered just 12,000 miles from new. It remained in storage until 2013 and then subsequently entrusted to model experts Kienle who carried out a total body-off restoration which took over 4 years to complete.

The quality of the restoration is nothing short of faultless and would make a fantastic addition to any of the worldâ€™s great

concours events.

With its full matching number status, very attractive original colours and a near perfect restoration by model experts, itâ€™s hard to think thereâ€™s any comparable example!
