TOM HARTLEY JNR

1959 FERRARI 250 GT LWB California Spyder Competizione

Blu Metallizzato with Beige Leather

£SOLD

Mileage	N/A miles	Engine Capacity	2953cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	1627 GT

1 of only 50 LWB 250 California Spyders ever produced and 1 of only 8 aluminium-bodied â€˜Competizioneâ€™ examples. Of the 8 aluminium-bodied cars, this is 1 of only 6 that was born with disc brakes.

It also benefits from being an original covered headlamp example, the only LWB California Spyder to be born without side vents from new and is fresh from a total restoration by marque specialists.

Following its restoration it was awarded its Ferrari â€˜Red Bookâ€™ Classiche certification which confirms it importantly still retains its original chassis, engine and gearbox.

A very special car that's offered direct from a highly decorated Formula One World Champion, who has owned the car for more than a decade.
