A very rare opportunity to purchase a no excuse, full matching number Ferrari 250 GTO.

Chassis 3527 GT is 1 of only 21 original left-hand drive Series 1 examples ever produced and still retains its original chassis, body, engine, gearbox and rear axle.

It was delivered new to Garage Francorchamps and was robbed of victory in the 1962 Tour de France. From 1963 to 1965, it raced under the Scuderia Filipinetti team banner and has subsequently been owned by some of the world's most prominent collectors.

Boasting unbroken provenance from new and fresh from a recent refurbishment.
