An early production, non-cat, non-adjustable suspension example that was delivered new through Dutch Ferrari concessionaire Kroymans to an infamous first owner.

The car would remain in the Netherlands until the turn of the century at which time it found new residence in Japan where it changed ownership several times before being re-imported back into Europe in 2015.

Benefits from a recent major service by the legendary Michelotto which included the replacement of the fuel tanks and fuel pipes.

Offered today from a significant Ferrari collection and comes complete with its Ferrari â€˜Red Bookâ€™ Classiche certification which confirms it still retains its original chassis, body, engine and gearbox.
