Mansour Orange with Black Sabre Style Seats with Orange Accents

£SOLD

Mileage	11 miles	Engine Capacity	3994cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	765765

Limited to only 765 examples ever produced, this 765LT is a track focused supercar that represents the pinnacle of McLaren's "*Longtail*" philosophy. Derived from the 720S, the 765LT enhances performance, aerodynamics, and driver engagement, it is also 80 kg lighter than the 720S due to the use of carbon fibre, a titanium exhaust, and other weight-saving measures. Powered by a 4.0 litre twin-turbocharged V8, it accelerates from 0-62 mph in just 2.8 seconds, matching the 0-62 mph time of the McLaren P1 – making it exhilaratingly fast. The 765LTâ€™s engine produces 755 bhp and is capable of reaching a top speed of 205 mph.

This particular example is finished in the striking MSO bespoke exterior paint of â€˜*Mansour Orange'*, complemented by an array of carbon fibre exterior upgrades such as the carbon front air intakes, an MSO body-coloured carbon fibre bonnet, rear aero bridge and a carbon finished rear diffuser, highlighting McLarenâ€™s commitment to lightweight performance and technical artistry.

Tom Hartley Jnr, Tadmarton Heath Road, Hook Norton, Oxfordshire OX15 5DD

Inside, the cabin features a black leather trim across the dashboard, accented with bespoke MSO contrast orange stitching. The seats have been upgraded to the adjustable super-lightweight '*Sabre style*' racing seats that complete the carâ€™s dynamic nature and character. The steering wheel combines carbon fibre and Alcantara, providing a precise and engaging driving interface. Practical additions include front and rear parking sensors, 360Â° park assist, vehicle lifting system, branded floor mats, fire extinguisher and warning triangle.

It comes with its handbooks including the service/warranty supplement, spare key, battery conditioner, car cover and a dedicated history file.

The 765LT is built for enthusiasts who desire breathtaking performance fused with McLarenâ€™s true DNA.

Currently located and taxes paid in Bahrain.
