TOM HARTLEY JNR

2007 FERRARI F430 Spider

Grigio Silverstone with Bordeaux

£SOLD

Mileage	4,891 miles	Engine Capacity	4308cc
Body Style	Convertible	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	155933

Introduced in 2005, the Ferrari F430 Spider represented a significant advancement over its predecessor, combining elegant Pininfarina styling with a host of technological improvements. At its heart lies Ferrari's naturally aspirated 4.3-litre V8, producing 490 bhp and paired in this example with the six-speed F1 paddle-shift transmission. Accelerating from 0â€"62 mph in just 4.1 seconds and onto a top speed of 193 mph, it delivers an exhilarating driving experience, accompanied by one of Ferrari's most evocative V8 soundtracks.

Combining exceptional performance with genuine everyday usability, the F430 Spider is widely regarded as one of Ferrari's finest modern V8 models. With its naturally aspirated engine, timeless design and engaging character, it remains an increasingly desirable modern classicÂ to enthusiasts and collectors alike.

This UK-supplied example was commissioned with the following factory options, including: Daytona-style seats, electrically

adjustable seats, heated seats, Ferrari Cavallino embossed onto head rests, carbon interior centre console, carbon interior trim, automatic climate control, Nero special stitching, Nero carpets, Manettino steering wheel-mounted driving mode selector, Bi-Xenon headlights, carbon ceramic braking system, Scuderia Ferrari shields on the front wings, brake callipers, carbon fibre Challenge-style rear grille, front and rear parking sensors, high-power Hi-Fi system with subwoofer and satellite navigation with Bluetooth.

Despite showing exceptionally low mileage from new, it has been impeccably maintained, with all servicing carried out as follows:

2008 October, 968 miles – H R Owen Ferrari

2009 February, 2,111 miles – H R Owen Ferrari

2010 November, 2,558 miles – H R Owen Ferrari

2011 August, 3,060 miles – H R Owen Ferrari

2012 August, 3,345 miles – H R Owen Ferrari

2013 September, 3,778 miles – H R Owen Ferrari

2015 November, 4,663 miles – DK Engineering

2018 September, 4,688 miles – DK Engineering

2021 April, 4,712 miles – DK Engineering

2023 April, 4,718 miles – DK Engineering

2026 June, 4,882 miles – Graypaul Ferrari Nottingham

Presented in exceptional condition throughout, this example is offered complete with its original handbooks, including the all-important guarantee and maintenance supplement, Ferrari torch, Ferrari tool case, Ferrari tyre inflator, car cover, charger, spare key and a dedicated history file.
