TOM HARTLEY JNR

2008 PORSCHE 911 GT2 (997)

Black with Black Leather

£375,000

Mileage	25,277 miles	Engine Capacity	3600cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	776161

The Porsche 911 GT2 has long occupied a unique position within the 911 line up, combining the performance of the turbocharged models with the focused, rear-wheel-drive philosophy of Porscheâ€™s GT department. Introduced in 997-generation form in 2007, the 997 GT2 sat at the very top of the 911 range and was, upon its launch, the most powerful road-going 911 Porsche had ever produced. Believed to be one of just 62 right-hand-drive examples supplied to the UK, the 997 GT2 remains an exceptionally rare sight.

At its heart is Porscheâ€™s formidable 3.6-litre twin-turbocharged flat-six engine, producing 530 bhp and 680 Nm of torque. Unlike the contemporary 911 Turbo, which employed four-wheel drive, the GT2 sent its power exclusively to the rear wheels through a six-speed manual transmission. The result was a considerably more focused and involving machine, capable of accelerating from 0â€“62 mph in just 3.7 seconds and reaching a top speed of 204 mph.

The GT2 was about far more than outright performance. Porsche combined extensive weight-saving measures with a rear-wheel-drive configuration, while the chassis, aerodynamics and braking package were developed specifically for the demands of the car. Porsche Ceramic Composite Brakes were fitted as standard, together with model-specific suspension and extensive aerodynamic revisions, including the distinctive fixed rear wing. The result was a 911 that combined extraordinary performance with the immediacy, balance and driver involvement for which Porscheâ€™s GT cars have become renowned.

This single-owner example was specified new with the following factory options and features: Sport bucket seats, Sport Chrono Package, GT3 Alcantara steering wheel, Sound Package Plus with CD storage box, extended navigation module, telephone module, ParkAssist, automatically dimming interior and exterior mirrors with integrated rain sensor, HomeLink, windscreen with grey top tint, Xenon headlamps with headlight cleaning system, 19-inch GT2 design wheels and a security tracking system.

The car also benefits from an excellent documented service history from new, all carried out by its original supplying dealer:

2008 October, 5 miles – Porsche Centre Edinburgh

2010 October, 6,141 miles – Porsche Centre Edinburgh

2012 October, 10,782 miles – Porsche Centre Edinburgh

2014, September, 14,240 miles – Porsche Centre Edinburgh

2016 October, 15,450 miles – Porsche Centre Edinburgh

2018 October, 18,510 miles – Porsche Centre Edinburgh

2020 October, 19,515 miles – Porsche Centre Edinburgh

2022 October, 22,881 miles – Porsche Centre Edinburgh

2024 October, 24,728 miles – Porsche Centre Edinburgh

2026 August, 25,055 miles – Porsche Centre Edinburgh

Presented in excellent condition throughout, the car is complete with its original handbooks including guarantee and maintenance supplement, leather pouch, spare key, tool kit, warning triangle, tyre inflator kit, battery conditioner and car cover. A dedicated history file also accompanies the car, containing the original sales invoice and all previous service invoices from 2010 to the present day.

A rare opportunity to acquire a truly stunning example, complete with its outstanding documented provenance.
