This Ferrari 512 BBi has to be the best one available anywhere. It is 1 of only 42 UK right-hand drive cars, delivered new with air conditioning, electric windows and Rosso inserts on the Daytona style seats. This car has been in the ownership of a very well respected collector for the last last 21 years, in which time has won the Ferrari Concours and has been maintained to the highest level, being stored in a temperature controlled environment and not being driven in the wet. It has been regularly serviced sparing no expense and comes complete with an extensive history file including all the original books, wallet and tools, workshop manuals and photo album showing the work carried out in 1990 to make the car concours standard. With only 16,000miles and a faultless history this really is an opportunity to buy the best Boxer maybe in existence…
