TOM HARTLEY JNR

1966 JAGUAR E-TYPE EAGLE SERIES 1 4.2 ROADSTER

Eagle Midnight Grey with Red Leather

SOLD

Mileage	N/A miles	Engine Capacity	4200cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	14367

This supremely beautiful and desirable E-type has been painstakingly restored to perfection. Every dynamic element of the car has been dramatically improved including the handling, ride, brakes and the GT spec big valve engine upgrade all carried out by leading E-type specialist Eagle GB. The interior has been exquisitely finished and every tiniest detail has been skilfully honed and reworked but remains looking fundamentally standard. The extensive specification includes speed sensitive electronic power assisted steering, handmade stainless exhaust with a sporty exhaust note, sports wood steering wheel, soft hide seats, retro CD tuner, iPod interface, high power heater fan, custom fit chrome door mirrors, modern stalk type seat belts, mohair hood and hood cover, tinted glass and wider chrome wire wheels with stainless spokes. This classic E-Type is truly one of the very best restored roadsters available in the world with the reliability, performance and handling that we now take for granted in a modern supercar.
