Spa Silver with Grey Leather

SOLD

Mileage	6,027 miles	Engine Capacity	3498cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	220740

Along with being one of only 69 right-hand drive examples produced, this XJ220 also benefits from a much-recommended brake upgrade, which was performed by leading XJ220 specialist Don Law. This particular car has been very well maintained from new, with its most recent 24-month service being carried out in March 2014, at which time the car received a new fuel tank, new fuel hose kit, new fuel pumps, a new ignition system, and a full service to its brakes, steering, and suspension. This example has had only three owners from new and is in impeccable condition throughout. An XJ220 has an inspiring presence, and it is a car that must be included in any modern supercar collection. Additionally, it represents amazing value when compared to its direct rivals!
