Ivory with Red Leather

SOLD

Mileage	N/A miles	Engine Capacity	1897cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	015333

Introduced in 1954 at the New York Auto Show, the Mercedes-BenzÂ 190 SL complemented the 300 SL as a more affordable and equally stylish alternative. The example we are offering here is maybe the very best and most original in existence, complete with its factory hard top, only 3 owners from new and a warranted mileage of just 11,788 km, this truly is a time warp example! It has recently been inspected by the UKâ€™s leading Mercedes-Benz specialists, who after a thorough inspection reported only the following observations: the original tyres would benefit from replacing, the water hoses are hard and the water pump is leaking, the car requires service and the soft top showing age. All items were rectified apart from tyres and hood to protect its unique originality. The bodywork, interior and engine are in amazing order, which is a compliment to the previous owners, who have obviously maintained the car to the very highest level.
