1 of only 10 examples built by AC Cars to correct period specification, known as the 'continuation cars', fitted with a genuine 7.0 litre/427ci high compression 'top oiler'™ (as opposed to a 'side oiler'™) engine and the enlarged endurance racing fuel tank, only 3,385miles from new, total original paint and perfectly sorted throughout, originally destined for America, this car also benefits from having a 'CSX'™ chassis number prefix. Outstanding performance, a correct continuation car built by the factory that's™ a fraction of the cost of an identical period example.
