A beautifully restored and well documented example, class runner-up to an Aston Martin DB4 Zagato at the 2014 Salon Prive Concours D'elegance. Only circa 150 of the more desirable 2.5 litre 3-carburettor examples were ever produced of which this is one. Fitted with the optional bucket style seats with the originals accompanying it, also complete with restoration photos, toolkit, jack, car cover and good history file. Breathtakingly gorgeous and must be seen in order for the restoration to be appreciated!
