A very late production 360 Spider, that was until 2017 a 1 owner car from new. Optional extras when new included Grigio stitching throughout, Rosso brake callipers and Xenon headlights. Complete with its original handbooks including its service/warranty supplement, owner's manuals, leather pouch, certificate of conformity, Becker Radio code card, tool kit and tyre canister. In 2021 Graypaul Ferrari carried out a major service including replacing the cam belts and cam belt tension bearings. Having acquired the car from one of the worlds most highly respected Ferrari collectors and taking the mileage and above into account, we're confident in saying this must be the one of the very best examples anywhere.
