A really beautiful Pagoda, Supplied new by 'Lanes Motor Sales', the authorised Mercedes-Benz dealer in Melbourne Australia. 1 Lady owner for the first 13 years and 30,000miles of its life, always regularly serviced which is documented in its accompanied original service book, fabulous condition throughout which is most likely a reflection on the fact it's spent nearly all of its life in a warm and dry climate. Since coming to the UK in 2000, the car has been maintained by leading Pagoda experts Roger Edwards Motors who regard this particular car very highly. Complete with hard and soft tops, all its original books including service book and buff coloured pouch, plus its original data card and toolkit. Very few Pagodas could compare with this!
