TOM HARTLEY JNR

2002 BMW Z8Roadster

Titan Silver Metallic with Black Nappa Leather

£SOLD

Mileage	13,494 miles	Engine Capacity	4941cc
Body Style	Convertible	Fuel	Petrol
Transmission	Manual	Chassis No.	AH62031

Offered direct from four-time Formula One World Champion Sebastian Vettel.

Is there any better interpretation of a modern classic than a BMW Z8, probably not! Inspired by the legendary BMW 507 and starring in James Bonds 'The World Is Not Enough' in 1999. The Z8 took ten-times longer to produce than a contemporary BMW as it was primarily assembled by hand. All examples produced were in left-hand drive configuration and the most desired colour was Titan Silver metallic, of which only 1,895 examples were produced.

This particular example was delivered new to North America where it would reside until 2015, during that time it only had 2 previous owners. Upon Sebastian's purchase it was officially imported into Switzerland and later sent to BMW Classic where included in the works, the electronics were changed from U.S. to ECE spec and has remained within his collection since.

It's presented for sale fresh from a service and comes complete with its owners handbooks, spare keys, tool kit, history file
