Continuing in the strides of legends, the Ferrari 488 Pista is the last in a long line of phenomenal track orientated versions of Ferrari's V8 supercars.

The 488 Pista is the successor of the 458 Speciale and was the first mid-engined turbocharged V8 released by Maranello since the production of the F40. Upon its launch the 488 Pista was fuelled by the most powerful V8 engine in the Maranello marque's history and was the company's special series sports car with the highest level of technological transfer from racing to road. Its given name Pista means 'track' in Italian and was chosen specifically to testify Ferrari's unparalleled heritage in motor sports. Technically the car encompasses all of the experience built up on the world's circuits by the 488 Challenge and the 488 GTE and its engine is in fact a full-fat version developed from the 488 Challenge race car, giving the Pista an astonishing 0-125mph in 7.5 seconds and a mind-boggling top speed of 211mph!
