Body Style	4-Door Saloon	Fuel	Petrol
Transmission	Automatic	Chassis No.	207134

The Rolls-Royce Phantom Tempus is one of only 20 examples ever made worldwide and this car is believed to be one of only two cars delivered to the UK. It is a totally unique motorcar having been designed by Goodwood purely for the Phantom saloon which is Rolls-Royceâ€™s pinnacle model.

Inspiration to the concept was influenced by â€˜time, astronomical phenomena and the infinite reaches of the universeâ€™. The exterior paint finish was completed in a bespoke colour of Kairos Blue which incorporates a mica flake that produces a very subtle sparkling â€˜stars in the night sky' effect. The interior is further influenced by the starlight headlining being reimagined with a Pulsar star design that combines fibre-optic lighting with complex design embroidery. Door panels are illuminated to enhance the feel of length and perception of space in the car. Interior facia has been produced from a single billet of aluminium and has been milled to a design to form 100 individually contorted columns which characterises a 100-million-year period of a rotation of a pulsar star, the time clock has also been removed to â€˜signify freedom from time and its

limitationsâ€™. All veneers are a bespoke finish in Kairos blue, the glovebox contains a statement embossed in silver foil from Albert Einstein â€˜Frozen Flow of Time' gallery. Finally, the car is fitted with a hand-painted Champagne chest that incorporates a table, thermal flasks for chilling both Champagne and caviar, four hand-blown crystal flutes and two mother of pearl caviar spoons.

This single owner from new 'Tempus' example benefits from a fantastic specification with many special features in addition from those listed above that includes; front seating with massage function, comfort rear seats with massage function, rear seat entertainment, rear picnic tables that are veneered both sides, immersive seating to rear with cocktail compartment containing a decanter and two R-R tumblers, cool box to rear centre console with two R-R champagne flutes, rear compartment foot rests, R-R monogram to all headrests, full seat piping and contrast stitching in Charles blue, head-up display, R-R bespoke audio, Apple CarPlay, TV function, DAB tuner, driver assistance system that includes active cruise control, night vision along with pedestrian recognition plus surround view, comfort access, sun protection glazing, black exterior detailing, illuminated Tempus Collection tread-plates, chassis vin plate, stainless steel fuel filler cap, Tempus Collection Charles blue single coachline plus visible exhaust pipes.

In addition, this car benefits from the fitment of additional Mansory options such as the 24″ fully forged lightweight alloy wheels, carbon fibre bonnet, rear boot spoiler and sport pedals. It is presented in excellent condition throughout and comes complete with its spare key, 2x Rolls-Royce monogrammed umbrellas and a dedicated history file.

Offered with a huge saving off its cost new price which was in excess of Â£530,000.
