Porsche Motorsport Centre in Weissach, Germany was responsible for the superior performance and styling of the 911 (991) GT3 RS that was launched in 2015. Powered by a four-litre six-cylinder engine that produces 500 hp (368 kW), combined with a specially developed PDK transmission, accelerates from zero to 100 km/h in 3.3 seconds and to 200 km/h in 10.9 seconds. The RS bodywork features an aerodynamic design that includes a deep front spoiler and large rear wing, reinforced front wheel-arch air vents that extend into the upper section of the wings, all designed to increase downforce.

Our single owner, UK supplied 2016 model year example was specified in the stunning colour of Ultra Violet with the following factory options and features: Porsche ceramic composite brakes (PCCB), adaptive sport seats Plus (18-way electric), heated seats, carbon dashboard trim, carbon centre console, carbon door sill guards, sports steering wheel in Alcantara, roof lining in Alcantara, Porsche communication management including navigation (PCM), telephone module, digital radio, sound package plus, six-disc CD/DVD player, Sport chrono package including track precision app and preparation for lap trigger,
