One of only 272 examples ever produced and a car that was delivered new to a then current Formula One driver.

This particular example boasts just 9,215 km and very few owners from new but all prominent collectors.

Offered for sale complete with its Ferrari 'Red Book' Classiche certification, its original handbooks including its service/warranty supplement (which is something that is not often seen with examples today) plus its spare wheel, tool kit and a dedicated history file.

A spectacular example of the original and rarest of all the Ferrari supercars.
