£SOLD

Mileage	45 miles	Engine Capacity	3994cc
Body Style	Coupe	Fuel	Petrol
Transmission	Semi-automatic	Chassis No.	298050

Created by McLaren Special Operations (MSO) to commemorate the marqueâ€™s legendary 1995 Le Mans victory, the 720S Le Mans is a limited production masterpiece blending cutting-edge performance with rich motorsport heritage. Just 50 examples were built globally, each equipped with bespoke features that honour the McLaren F1 GTRâ€™s historic first place finish at the 24 Hours of Le Mans.

The 720S Le Mans features McLarenâ€™s acclaimed 4.0 litre twin-turbocharged V8, producing 710 bhp and accelerating from 0-60 mph in a blistering 2.8 seconds. But this edition is far more than just raw performance, it is a showcase of lightweight engineering, exclusivity and tribute styling.

Finished inÂ the bespoke exterior pain finish of â€˜*Mansour Orange*â€™, this example features the fullÂ Le Mans Package (LM Pack), includingÂ Ueno Grey-painted front bumper lower, side skirts and rear bumper. A roof-mounted snorkel that was

inspired by the F1 GTR, feeds air directly into the engine bay, flanked by a polycarbonate rear screen. TheÂ visible carbon fibre body structure is complemented by the complete carbon fibre exterior upgrade packs 1, 2, and 3, which include: carbon fibre front splitter, rear diffuser, rear bumper, and side intakes, carbon fibre louvred front fenders, carbon fibre upper door panels, high-gloss carbon fibre diffuser and satin carbon fibre MSO-defined sill panels. A set ofÂ 5-spoke LM wheels, etched with â€œ*Le Mans*â€ insignia, are finished in Stealth, concealing striking gold brake calipers; a nod to motorsport found only on this edition. The sports exhaust system delivers a sharper, more visceral soundtrack, while the Stealth Pack ensures every exterior detail is a subtle sophistication.

The interior reflects the brands racing pedigree and bespoke craftsmanship, trimmed in a bespoke grey Alcantara Le Mans theme.Â Touring-size racing seats, upholstered in carbon black Alcantara with '*Daytona*' style accents feature embroidered Le Mans logos on the headrests. AÂ 12 oâ€™clock marker in Volcano OrangeÂ decorates theÂ Alcantara-wrapped steering wheel, paired withÂ MSO defined carbon fibre steering paddlesÂ and aÂ carbon black Alcantara finish. Virtually every surface is carbon-enhanced, including carbon fibre seat backs, primary and secondary interior components, fascia vents (MSO-defined), satin carbon MSO sill panels and interior switchgear surrounds.

A harness bar with 6-point racing harnesses reinforces the carâ€™s track credibility, while modern conveniences remain intact: a 12-speaker premium audio system, McLaren Track Telemetry with app and cameras, front & rear parking sensors, 360Â° parking assist, electric steering column, and a vehicle lift system all come standard. The interior is completed by branded floor mats with Le Mans logos and a Volcano Orange Le Mans dedication plate mounted on the door sills.

It is complete with its handbooks including the service/warranty supplement, battery charger, car cover, warning triangle, first aid kit and a dedicated history file.

With its race-derived enhancements, extensive carbon fibre specification, and meticulous attention to detail, the 720S Le Mans is a rolling tribute to one of McLarenâ€™s greatest motorsport triumphs, a centrepiece for any serious McLaren collection.

Currently located and taxes paid in Bahrain.
