TOM HARTLEY JNR

2013 NOBLE M600CARBON SPORT

Clear Carbon Body with Black With Beige Interior

£199,950

Mileage	11,400 miles	Engine Capacity	4439cc
Body Style	Coupe	Fuel	Petrol
Transmission	Manual	Chassis No.	113011

A Noble is the hand-built, analogue, British supercar! 6-speed manual, 650bhp, 0-120mph in 8.9 seconds and a top speed of 225 mph. The example we are offering here is quite fittingly build number #007 and was the car displayed at the Geneva and Paris Motor Shows. It is one of only circa thirty M600's built to date, of which there are far fewer Carbon Sport editions. A total spec car that has been owned by a 'Titled' gentleman and serviced regularly back at the factory. Presented in as new condition throughout and still complete with its spare key, original handbooks and tailored car cover. A real drivers car!
